We understand there are several candidates for the position, the appointment to which is the province of the Governor of the Island.

> THE REACTION.-Last week the two ocean steamers our streets and the passing to and fro of merchandise made things look brisk-and in fact there really was some business going on. Now however that they are gone, everything has flattened down again, and dullness reigns.

for the relief of Chicago sufferers, and now we learn that they have promptly raised between three and four hundred dollars for putting a vestry room at the rear of the church building.

REMOVAL OF THE U. S. HOSPITAL. - We understand that Dr. McGrew has leased the premises lately occupied by the American Club, and is busied in fitting them up as a marine hospital. The wellknown experience and good taste of the doctor, is sufficient guarantee that the buildings and grounds will be made as comfortable, and attractive in fact, did not have any weight, nor did his other plen, to while the location presents many advantages over the present site.

More Burglanies .- We learn that on Tuesday night last, the dwelling house of Mr. G. W. Macy was entered, and \$115 in cash stolen. The thief was also heard on the premises of Mrs. Colburn, near by, but hearing some one awake, left. Yesterday, the dwelling house of Mr. R. Rycroft was entered between the hours of 10 and 3 o'clock in the daytime. and thieves succeeded in carrying off a watch and a small sum of money.

A New Flag Pole.-Engine Co., No. 2, have received from Oregon, by the Jane A. Falkinberg, every fine spar, (ordered some months since) for a Hag-staff in front of their rooms on Garden street. The spar is 136 feet in length, and when set up it will be mounted with the fire-hat, which "Two's consider as their peculiar badge, and it will considerably over-top the staff on the bell-tower. It will require some little engineering to get it through the streets and onto the ground where it is to stand, without lifting over corners, and its erection will be an event for the Company.

A LARGE BOILER -The Comet brought on deck a farge boiler for the Hobron Plantation at East Maui, which must have cost-we won't guess how many, but-several thousand dollars. It is an immense affair, as big as that of the steamer Kilauea. In this nnection we may remark that a new improvement has lately been introduced at the East, but which so far as we have heard has not yet been adopted here, that consists in placing a gutta percha band on the balance wheel of an engine, to utilize the otherwise waste power. Another advantage is claimed, that it steadies the running of the engine.

Kauai Wednesday, we learn that while that vessel lay at Koloa last Saturday, the Captain and family went on shore, leaving a little child about three years old, a daughter of the Captain, playing about the deck, and one sailor, employed below, these being the only persons on board. On the return of the party to the vessel, the child could not be found, and the only conclusion is that the unfortunate little one fell overboard and was drowned.
